Raising the bar

BackBar

Maximise storage & display

SKOPE's BackBar series sets a new benchmark in bar refrigeration, combining performance, efficiency and optimum merchandising. With superior storage capacity and a completely front-breathing design, the BackBar reduces wasted floor space ensuring more cold products on display and therefore more to sell. With frameless glass doors and high-impact dimmable lighting you also have more visibility of your products - a sure way to increase sales. With more products close at hand, you'll also improve staff efficiency and customer service times.
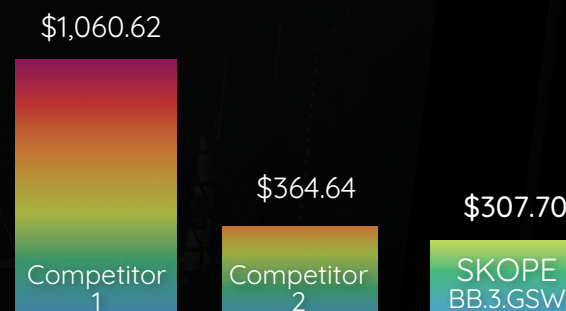

A bar fridge for every space

Different bars demand different design and operational needs. That's why BackBar is available in three footprints – BackBar, CounterLine, and SlimLine along with a matching Glass Chiller. Traditional bars maximise customer sightlines via high back-of-bar fridges. SKOPE BackBar's 920mm high body fits 3 rows of standard beer bottles or two rows of wine. CounterLine is typically used under the bar counter where its 830mm height and 680mm depth combines capacity with practicality. The SlimLine, as its name suggests, suits smaller footprint sites, but includes the same aesthetics and functionality of all BackBar models. Because some bars need a unique look, the BackBar series can be customised to almost any finish or design by SKOPE's expert custom refrigeration engineers.

Cutting edge power efficiency

Expertly designed natural refrigerant technology, low energy LED lighting, and energy-saving settings via the free SKOPE-connect app ensure minimised carbon footprint and energy efficiency gains of up to 63% over the previous generation. The range also delivers huge savings on energy costs when compared to competitor models.

SKOPE BB.3.GSW

Unprecedented control

Hush the fan, dim or schedule the lights, choose the optimum temperature for your product. Do it all at the touch of your smartphone with the SKOPE-connect app.

- Red Wine (15°C to 19°C)
- White Wine (8°C to 11°C)
- Sparkling Wine (7°C to 10°C)
- Beer – Ales/Lagers (0°C to 4°C)
- Beer – Stouts/Bitters (3°C to 6°C)
- Cold Drinks (0°C to 4°C)
- Food Safe (1°C to 4°C)

Tailored customer experience

BackBar is renowned for its commitment to quiet front of house experiences. At the touch of a button via the SKOPE-connect app, activate hush mode and the fan will fade into near silence. Dim the interior lights to create an ambience that perfectly complements the establishment's mood. This attention to detail sets the stage for lasting memories and unwavering customer loyalty.

BackBar, CounterLine, SlimLine 2, 3 & 4 door bar fridges

BackBar, Counter-Line, SlimLine 2, 3 & 4 door bar fridges with hush mode activated via SKOPE-connect™

[1] Energy costs calculated from published GEMS data of compariable models at 30c/kWh for 365 days.

The SKOPE Difference | Nothing performs like a SKOPE

Superior Storage Capacity

With BackBar's market-leading capacity you can store up to 420 bottles or 544 cans. Fully adjustable shelving allows the height to display two shelves of Riesling bottles or three shelves of lager bottles per door.

Precise Temperature Control

Approved for food safe storage (M1: 0-5°C) and engineered for customised storage of speciality drinks. Adjust the temperature from 0°C to 15°C to store anything from white wine, red wine, beer, or cider using the free SKOPE-connect app.

Quiet Running

BackBar is a name synonymous with quiet front of house experiences and the latest series are our quietest bar fridges yet. Reduce noise even further with built-in hush mode.

Drive More Sales

Frameless glass doors, condensation protection, and bright LED lighting, which can be dimmed at the touch of a button, ensures maximum product visibility to encourage impulse purchases.

Unrivalled Energy Efficiency

Truly green natural R290 refrigerant ensures minimised carbon footprint and up to 63% reduction in energy consumption, saving up to $750 a year on power bills.

Optimise Space

A compact, front breathing refrigeration cartridge allows fridges to be built-in or placed against a wall. The cartridge is interchangeable for quicker, safer servicing.

Efficient Operation

Highly efficient performance in hot climates, including ambient temperatures of up to 40°C, making it perfect for even the hottest environments.

Superior Warranty Protection

SKOPE has always been synonymous with quality. That's why BackBar is backed by a market-leading full 3 year warranty on registration.

BackBar | Summary

BackBar

CounterLine

SlimLine

BackBar

CounterLine

SlimLine

Perfect for:
- Bars, cafes, kitchens
- Providing maximum product visibility
- Displaying specialised bottles like tall Riesling and craft beer bottles
- Storing food and drink - including specific temperature needs

Total Capacity of 2 - 4 door models
- 168 - 336 x 600ml bottles
- 168 - 360 x 330ml cans

Maximise Storage & Display

Unprecedented Control

Quicker, Safer Servicing

Available Configurations

- Doors – 2, 3, 4
- Door Hinge – swing (with alternate side openings) or sliding
- Cabinet Finish - powder coat (black/black, white/white, custom colours) or stainless steel
- Door Finish – double glazed low E glass, tropical heated glass or solid
- Refrigeration Unit – left or right hand self-contained or remote

BB.2.GSW

BB.3.GSL

BB.4.SSW

Key Features

- Natural R290 refrigerant with very low running costs
- Double glazed low-E doors as standard for great visibility
- Heated cabinet fascia for condensation protection
- Powder coated for improved finish and durability
- LED dimmable interior lighting
- Adjustable height plastic coated wire shelves
- Built-in retractable locking tabs
- Up to 6 star GEMS energy rating
- 3 year warranty

Options

- Flat stainless steel benchtop
- Set of legs
- Right hand services
- Extra shelves and clips
- Punched stainless steel shelves
- Designer doors
- Plinth mounting
- Passthrough
- Viewing panel at rear

Stock Availability

- Stocked – swing 2, 3, 4 door, self contained models in black/black with left hand unit
- Made to Order – all other swing door model configurations and all sliding and solid door models

Ascend™

Everyday underbench refrigeration

Ascend™

Compact design, reliable performance

Ascend glass door bar coolers stand out as a step above the competition, offering exceptional products that elevate the SKOPE premium range. The Ascend lineup perfectly complements the rest of our premium offerings, with the range including bar coolers and underbench/countertop refrigeration, to provide a comprehensive solution for businesses. These dependable, hardworking display fridges are essential for any enterprise, ensuring that everyday items are showcased in a stylish and functional manner. Ascend glass door display fridges are a testament to SKOPE's commitment to meeting the diverse needs of businesses across various industries and emphasising a complete solution.

Sleek, seamless design

The three Ascend bar coolers and compact display fridge, are designed with a sleek mirrored finish and are available in various sizes for unique display needs. One notable feature of the HB85 is its versatility, as it can be conveniently placed either on the countertop or under the bench, providing adaptable options for different spatial requirements. Despite their differences, all models are meticulously crafted to meet the specific demands of a display fridge, ensuring dependable performance and functionality for daily use.

These products are built with features such as energy-efficient LED internal lighting and compact designs to maximise space utilisation. Each model is equipped with precise temperature control and durable construction, ensuring efficient cooling and reliable operation for showcasing beverages or food items.

The SKOPE Difference | Nothing performs like a SKOPE

Compact Design

Ascend offers cold merchandising in a compact design. With smaller footprints and compact refrigeration design, they fit where larger units won't.
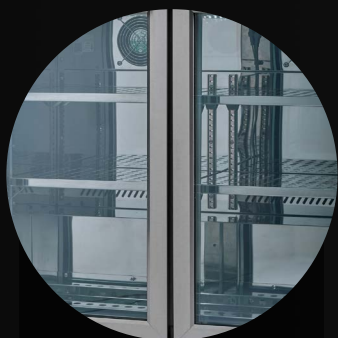

Drive More Sales

Bar Coolers are complete with mirror-finished 304 stainless steel for optimum merchandising and visibility of your food and drinks.

Low Energy Consumption

Expertly designed natural refrigerant technology ensures minimised carbon footprint and provides better energy efficiency than ever before.

Truly Green Technology

The Global Warming Potential of our natural refrigerant is virtually zero. Other refrigerants can be over 54,000 times worse for the environment.

Proven Performance

The Ascend series is certified to all Australian and New Zealand to store food safely below 5°C (M1)

SKOPE Reliability

SKOPE quality and reliability backed by a 2 year warranty across all Ascend products.

Ascend Compact Fridges | Summary

Perfect for:
- Cafes, restaurants and shops that require cold merchandising options in a compact package
- With smaller footprints - Ascend models can be used where bigger merchandisers won't go
- All products are suitable for food and perishable product display, thanks to their M1 rating

Available Configuration

Merchandisers:
- Compact fridge for under or on-bench use (HB85)
- 1, 2 or 3 door (Bar Coolers)

- Door Finish – glass
- Exterior/Interior Colours – white/white (HB85), stainless steel construction with mirror interior (Bar Coolers)
- Refrigeration unit – sself contained R600 (HB85) self contained R290 (Bar Coolers)
